

P/O 1A5 Charger PCB

Notes:

- 1). Circuitry shown outside dotted line is chassis mounted.
- 2). Circuitry shown inside dotted line is board/assy mounted.
- 3). This board also contains the Charger Turn-On Control Circuitry.
- 4). Circuit supply voltage sources shown on Charger Turn-On Control Scat.
- 5). All resistors are 1/4w unless otherwise noted.
- 6). 1RY2 shown de-energized (normal operating condition, charging off).
- 7). Charge Blower 1BL1 positioned to blow air over the Charge Regulator Assy.
- 8). Charge Blower 1BL2 positioned to vent the battery compartment.

DRAWING TITLE		1A5 Charger Circuit Schematic	
LOCATION 116 S. Prairie Ave. Waukegan, IL. 60085			
PROJECT NO.	001	DRAWN BY:	John R. Schaefer 24 Mar 98
SCALE:	None	DOC NAME:	Charger Scat.drw
Power Backup System	DOC LOCATION:		G:\ohm\Power Backup
